⚙️ What is a Preset?

- A **preset** is a **saved effect setting** — like color grading, zoom animation, or speed ramp style — that you can **reuse** easily.
- Saves **time** and ensures **consistency** in your editing style.

🎯 Types of Presets You Can Make

1️⃣ Motion presets (zoom, pan, rotation)

2️⃣ Color presets (Lumetri color adjustments)

3️⃣ Audio presets (voice EQ, compression)

4️⃣ Transition presets (fade, slide, etc.)

5️⃣ Speed ramp presets (custom time remapping look)

🎞️ Step-by-Step: Creating a Preset

✅ Step 1: Apply an Effect

- Select your clip and apply effects (example: **Scale 100% → 120%** + **Ease In/Out** keyframes).

✅ Step 2: Adjust and Animate

- Set your **keyframes** or **effect settings** (like motion, opacity, or color).
- Make sure everything looks exactly how you want it.

✅ Step 3: Save as Preset

- In **Effect Controls**, **select the effect(s)** you customized (e.g., “Motion,” “Opacity,” or “Lumetri Color”).
- **Right-click → Save Preset.**

🧩 Step 4: Name and Choose Preset Type

You'll see a window with **3 preset types** 👇

Type	Behavior	Example
Scale	Animates relative to clip length	Zoom animations (100 → 120%)
Anchor to In Point	Starts at clip beginning	Fade in, intro animations
Anchor to Out Point	Ends at clip end	Fade out, outro animations

🧠 **Tip:**

For motion/zoom → use **Scale**

For transitions → use **Anchor to In/Out Point**

🎬 Step 5: Use Your Preset

- Go to **Effects Panel → Presets Folder**
- Drag your preset onto any new clip → it'll instantly apply your saved animation or look!

💡 Example Preset Ideas

Preset Name	Effect	Purpose
Zoom In Smooth	Scale + Ease In	Focus transition
Cinematic Fade	Opacity + Ease In/Out	Scene change
Vlog Punch-In	Scale 100%→115%	Talking emphasis
Podcast Voice	EQ + Compressor	Professional sound
Speed Ramp Hit	Time Remap + Ease	Music drop moments

🧠 Quick Remember

💾 Save → Name → Choose Type → Reuse Anytime

🎯 Use consistent presets for a **professional editing style**

⚡ You can **export presets (.prfpset)** to share or back them up
